Hey Suzanne, The meeting will include EPA, the school's facilities manager and hopefully the school's consultant. I told Michelle that EPA folks would meet from

2-2:30 then call the school folks, but the facilities manager has to leave at 2:30 so we'll talk with the school folks from 2-2:30 then EPA can talk from 2:30-3.

**Subject:** RE: Monroe school results - latest round --- call on Wed.

Hi Kendall and Michelle,

Is the call you've scheduled on Wed. with the school facilities manager, or just EPA?

Is the info we've received from the school re testing results and removing all of the ballasts going to change the timing of EPA's visit? Will this be part of the phone discussion with the school?

Just trying to get a clear idea of where we're headed so I can plan our communications on this.

Thanks!

Hey all, I'd like to set up a meeting with the school's facility manager and our PCB team. Is everyone available this Wednesday or Thursday?

**Subject:** Monroe school results - latest round

Hi team-

The consultant for Monroe sent me this preliminary data today. Things are looking good, based on first glance. The air results are below the ELE for PCBs in indoor air at an elementary school, and only one wipe sample had a hit. 3.4 ug/sample for Aroclor 1254 in the LG GYM (large gym?

## Ex. 5 - Deliberative Process

Let me know if there is anything else you want me to ask from the school for now.

Take care,

## Michelle Mullin

Michelle,

Attached are the lab results we have to date for PCB analysis.

Please let me know if questions.

Thanks

Michelle,

Here is the report that you request. We currently have Gregg from PBS assisting with the environmental concerns at Sky Valley Education Center. I have included him in the email if you have any additional questions. As for the PCB analysis, Gregg has not completed his analysis of that data so I am not sure he has anything to provide yet as he is still testing.

We are currently in the process of removing all ballasts from Sky Valley Education Center. Please let me know if there is anything else or questions I can answer.

Thanks!

If you could send me the following on Monday, that would be great:

1. Contact information for the consultant
2. Report showing analysis for PCBs from initial assessment

3. Any subsequent data or report showing PCB analysis
4. Status of Fluorescent Light Ballast removal

I'll follow up with my email about cleanup methods.

Take care,
